EXPANDING MECHANISM REAL USB DIGITAL SPEAKERS AND COOLING PAD

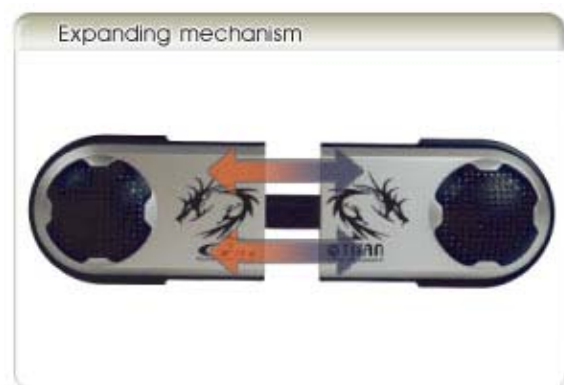

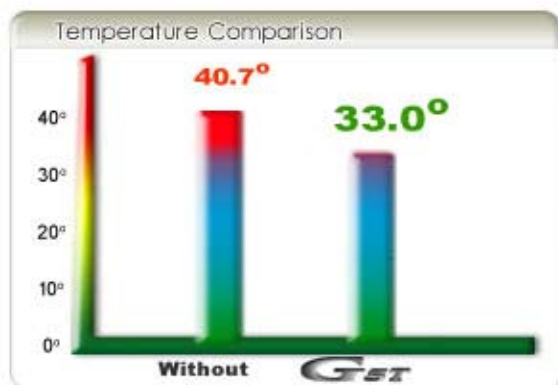

Titan TTC-G5T cooling pad speakers---Expanding mechanism with USB digital speakers.

TITAN Technology Limited, a leader in the design and manufacture of computer cooling solutions, today released the TTC-G5T, which is a notebook cooling pad incorporating 2 USB digital speakers, and with expanding mechanism, it's compatible with most notebooks.

By lifting up your notebook, the TTC-G5T is able to improve airflow for your notebook, so that hot and cool air can be exchanged quickly to reduce the heat trapped between your notebook and the desk to keep your hard-working notebook cool.

The TTC-G5T cooling pad speakers are USB-based speakers, which are fully digital, reproducing sound quality that exceeds the quality of notebook built-in speakers and surpasses the analog limitations.

For those who require better audio from your notebooks while on the road, the TTC-G5T may be the option you need. It's powered and receives audio via a single USB connection, which makes connections simple and neat.

The TTC-G5T has 2 functions. It can be used as a notebook cooling pad with speakers or standalone as portable speakers. Also, there are 2 USB connections on the TTC-G5T, which are specially designed for the above functions, depending on which way you will use.

In addition, the blister package comes with a carry pouch, which allows you to keep the cooling pad speakers. If you are looking for a notebook cooling pad with good quality speakers, Titan TTC-G5T will be a great choice!

Model: TTC-G5T

Features

- Providing effective notebook cooling and great sound quality
- Expanding mechanism, compatible with most notebooks from 10" to 17"
- Built-in 2 USB digital speakers better than notebook built-in speakers
- Power and sound via single USB port
- Use as notebook cooling pad with speakers or standalone as portable speakers
- Compact and lightweight, easy to carry

About TITAN Technology Limited.

Founded in 1989 and headquartered in Taiwan, TITAN Technology Limited. is a leader in the design and manufacturing of CPU coolers, DC fans, PC cooling kits, power supplies, and mini speakers. With a strong R&D team and ISO 9001 certified manufacturing facilities in China,

TITAN Technology Limited. is not only able to provide a wide range of products but also has been recognized as an innovation pioneer in the field. For more information, please visit us at www.titan-cd.com

Specifications

Outline Dimensions	220 x 70 x 34mm
Driver Unit	1.5" 8Ω 2W x 2
Satellite Output Power	0.6W RMS per speaker
Total Output Power	1.2W RMS
Frequency Response	180 Hz ~ 18K Hz
Power Supply	USB powered (DC 5V)
Net Weight	156 g
